#### TIME FOR LIFE

Transforming Izmir's image, Folkart is introducing a new perception of life above standards in the Bornova New City Center Area.

Folkart Time homes will jazz up sunny Izmir days with a **modern** architecture and off-beat details.

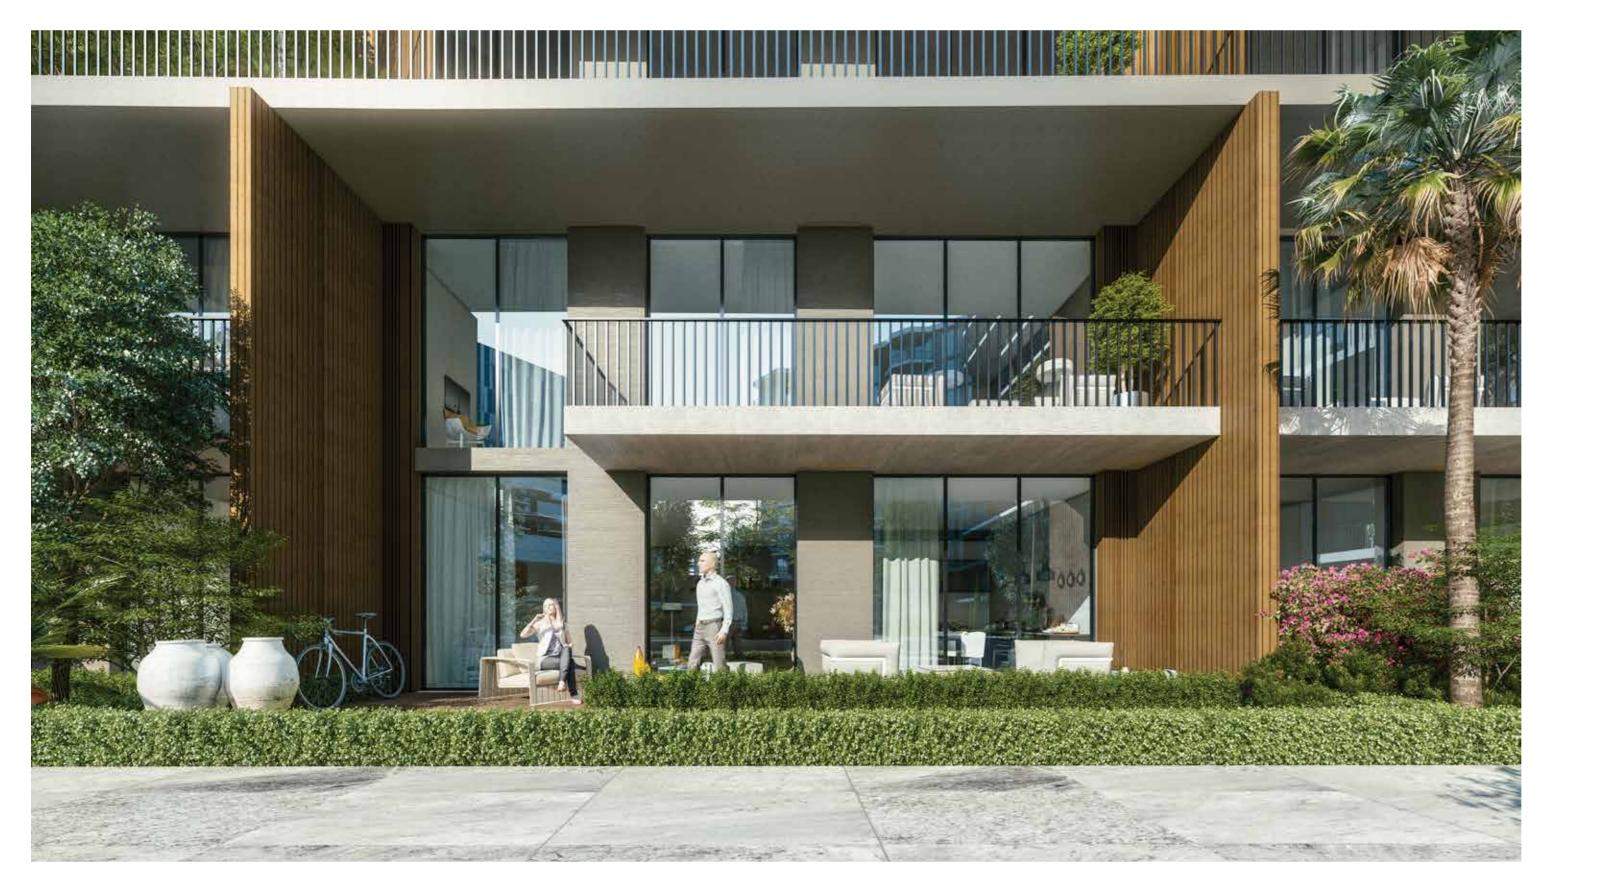

#### TIME-SAVING ARCHITECTURAL PROJECT

Imagine not losing time commuting in traffic to get to work, but rather walking to work instead. Envision not worrying if the school service comes on time or that you don't have to go to the other side of the city for a pleasant dinner with the family.

Enjoy all the advantages of urban life at Folkart Time.

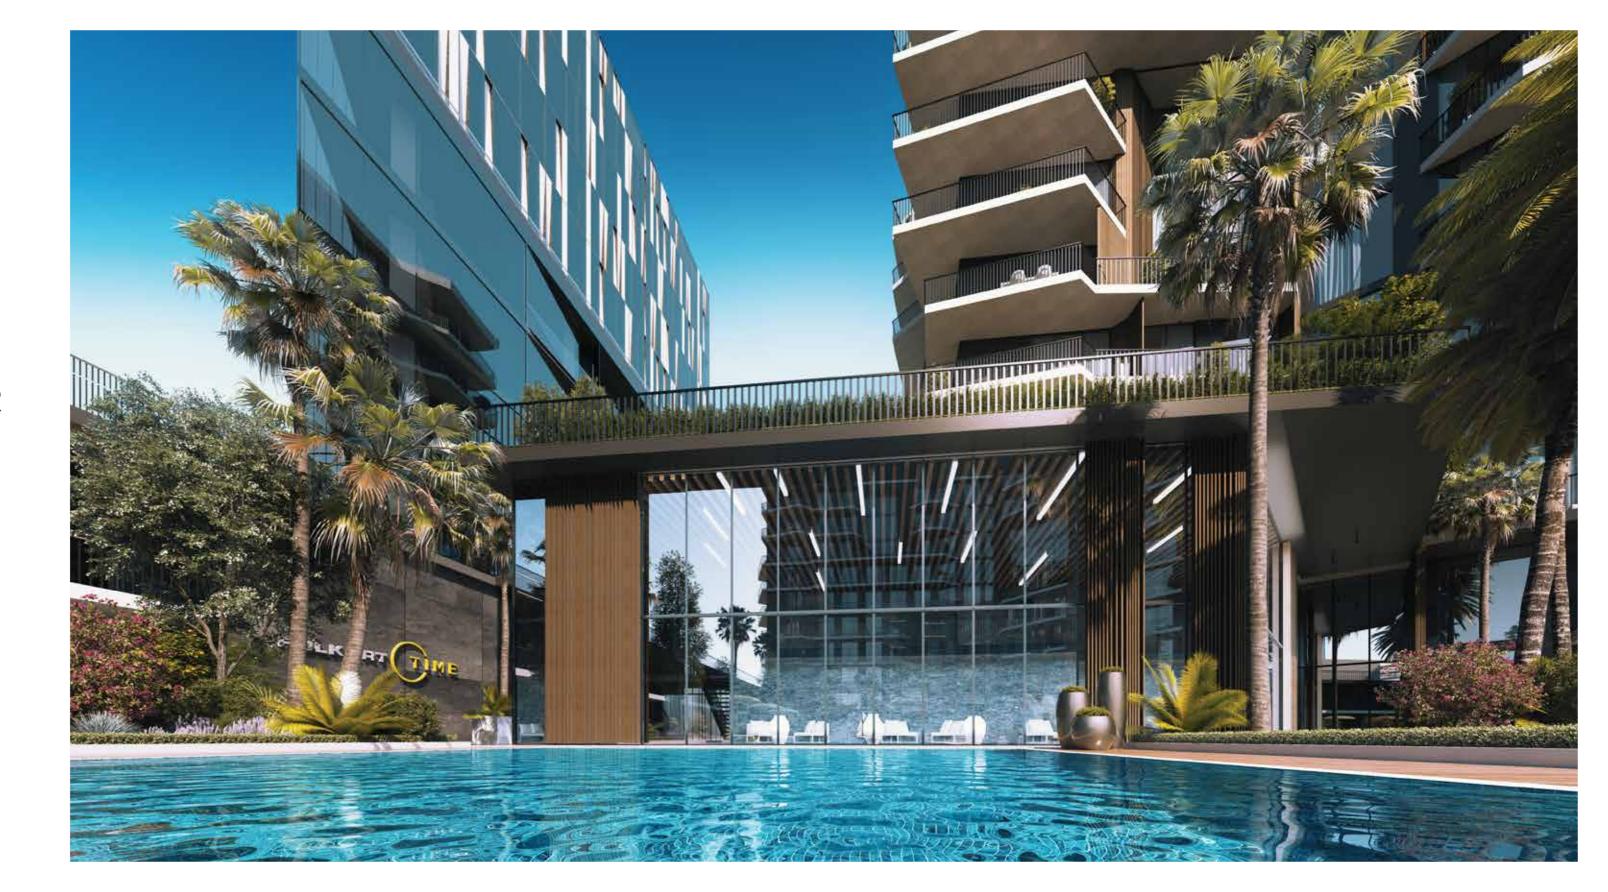

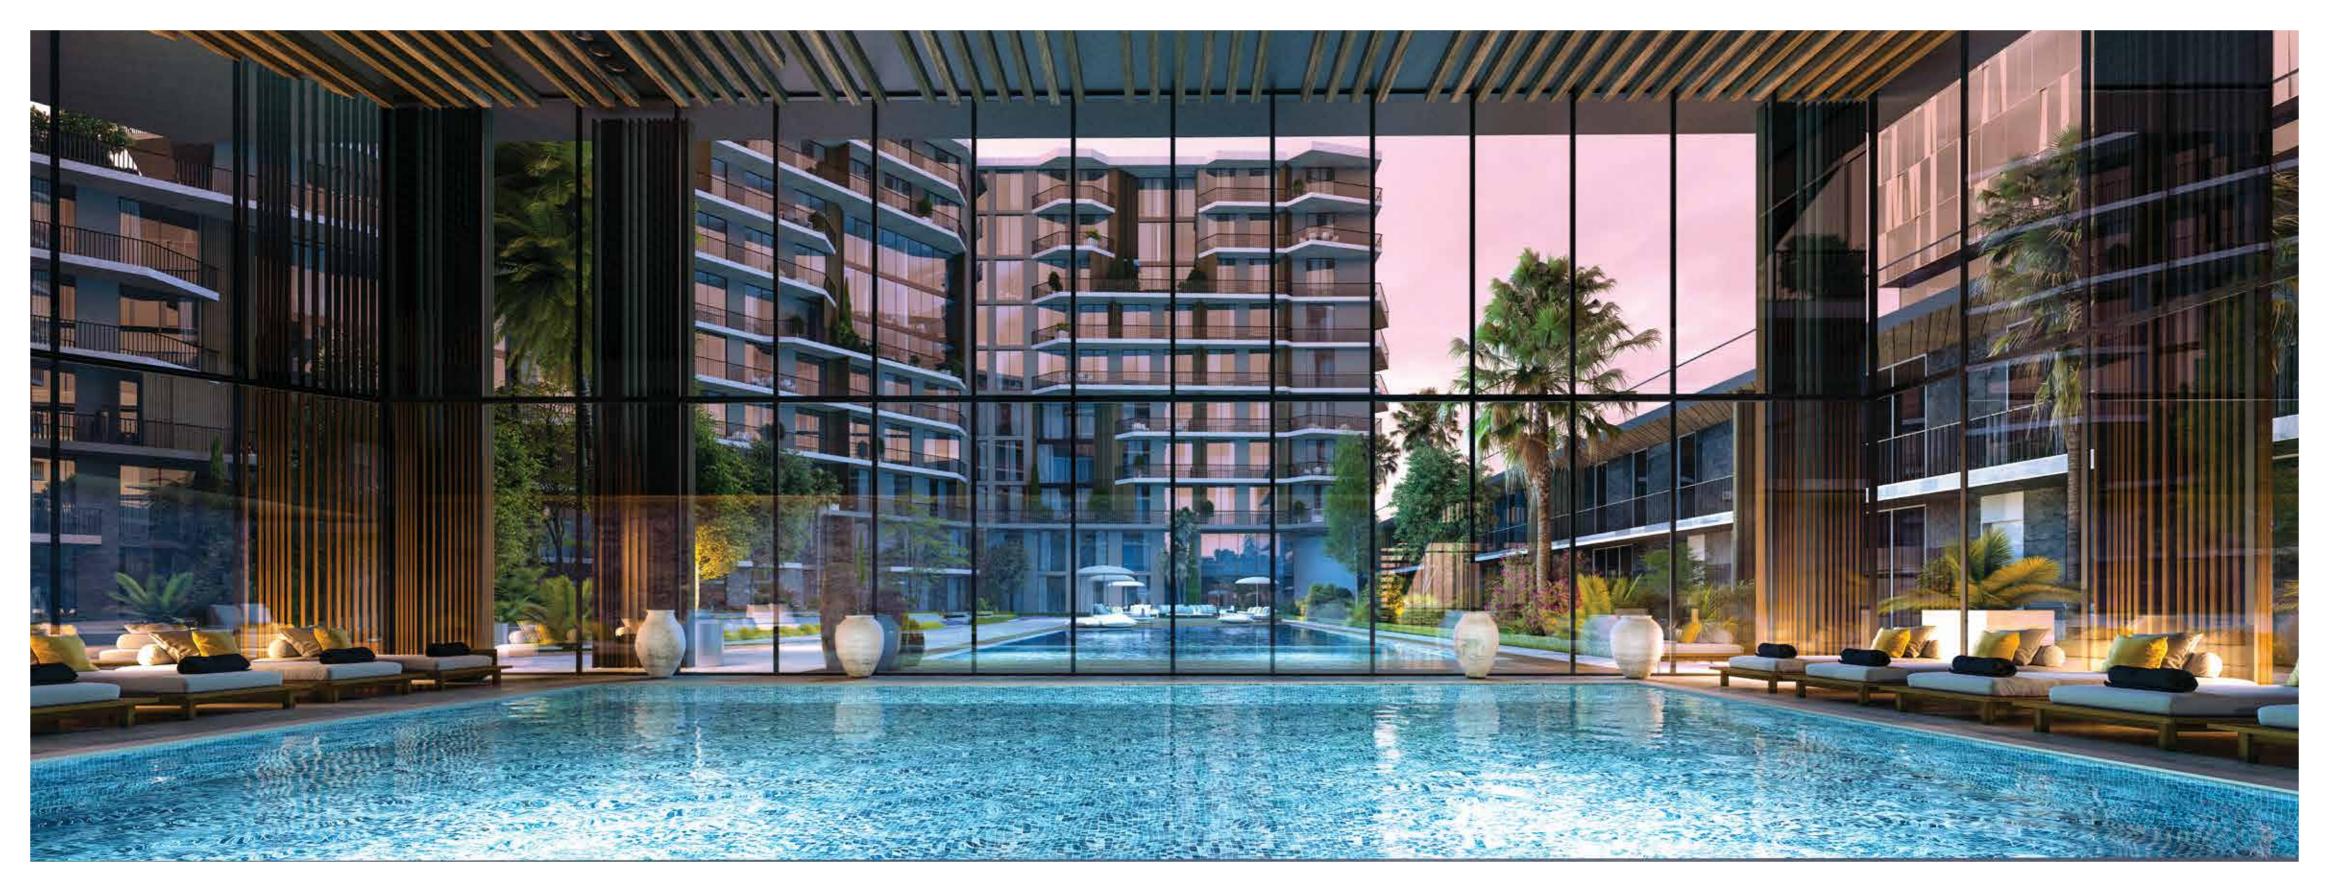

### TIME FOR PLEASURE

Savor Izmir's nice weather on your spacious balcony or terrace with a view at Folkart Time.

## TIME FOR THE POOL COME WINTER OR SUMMER

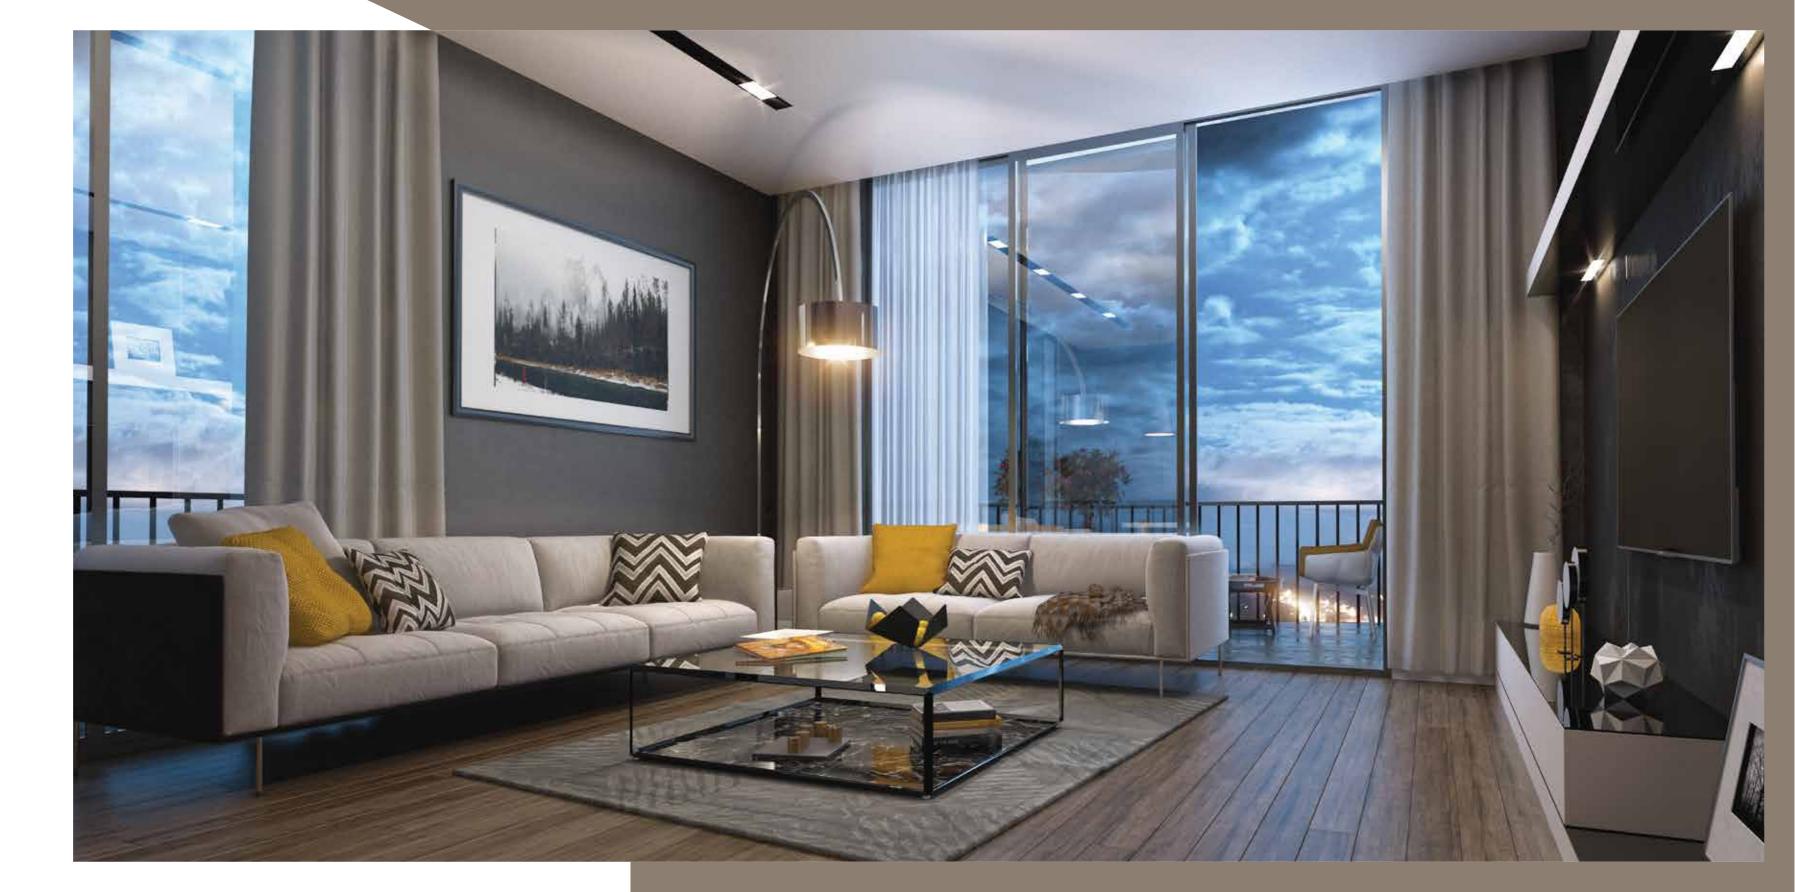

Relish swimming fun at Folkart Time come winter or summer with the privilege of indoor swimming pool.

### TIME FOR COMFORT

Life is more delightful in your home with both functionality and comfort combined.

### TIME FOR ZEST

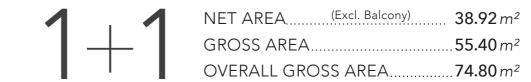

It will be more fun than ever to cook and host guests in your **bright** and **spacious** kitchen.

## THE ONLY MIXED-USE PROJECT FEATURING A PRIVATE HIGH SCHOOL

Folkart Time introduces another novelty in the mixed-use concept with the goal of making each moment count and saving you time. For the first time in Izmir, education is where you live!

Folkart Time residents will get priority in registration and your children will be able to walk from home to the modern school. Thus, they will have more time for you and their friends.

Meanwhile, you will ensure that **your children are getting equipped for life** with confidence at a superior educational institution.

## AT THE RIGHT TIME AND THE RIGHT PLACE...

A feeling you will get accustomed to after living at Folkart Time...

"I'm at the right place at the right time."

#### SCRA MİMARLIK // Mimari Proje

Established by Seden Cinasal and Ramazan Avcı in Izmir in 2009, the company has been in operation in Ankara since 2011. The team has produced work in multi-voice and multi-player collective efforts with many diverse teams to date. It has won a number of awards, of which five were for the top place, in national competitions. It took the first place in a national competition in 2012. Then, it was a finalist (along with the Steb I Studio Evren Başbuğ) in the Project category at the "13th National Architecture Awards" for the Bornova Municipality Yeşilova Höyüğü Visitor Center Project, and in the Buildings of the Future category as part of the "WAF, World Architecture Festival" in Singapore. As one of the nine teams selected from Turkey, it sought an answer to the question, "What does it mean to be a young architect in Turkey?" in the Eurovision corner of the A10 New European Architecture magazine. In every production process, it strives to handle, study and inquire about each job within its own context, and add more information layers on top them.

#### FREA MİMARLIK // Architectural Project

Established by Fatih Yavuz and Emre Şavural in Ankara in 2013. Following the "onbir41 mimarlık" experience between 2003 and 2013, FREA strives to become an architectural office with a focus on fresh ideas. As a young and innovative architectural and urban design office, it aims to create fresh ideas and innovative solutions for each new challenge. It believes in the power of collective production. The team is convinced that the way to staying fresh lies in the architectural competition platform. As such, it has received a number awards in architectural project competitions. It was nominated in the METU Northern Cyprus Engineering Laboratory Project 10th National Architectural awards, and it advanced to the 2014 finals in the Architecture+Design Turkey Young Architecture awards. It has continually embraced user satisfaction and practical architecture in touch with the environment in its projects of various sizes. Quality supersedes quantity is the company's motto. It focuses more on exerting itself on the problem than on just solving it, and on the quality of the process as well as of the end product.

#### NEV MİMARLIK // Architectural Facade Design

Established by Özgen Güngör Izmir in 2011. With a myriad of single family homes, apartment complexes, hotels and shopping malls under its belt, Nev Mimarlık continues to undertake urban and national projects with passion and excitement. Each design process is an adventure for the company with aspirations to achieve lasting architectural pieces. The adventure involves the team conceiving futuristic, environmentally-friendly and architecture-shaped designs that create superior living spaces for the end user by keeping up with global developments without breaking away from traditional architectural traditions. New Mimarlık initially sets out with an imagination and the desire to answer a need, contemplating on how to carry out the project from the drawing board to implementation. At this stage, the company collaborates with all disciplines associated in the project.
